HiLife answers the call of nature!

Look out for HiLife Nature's Essentials, our new pouch range of natural, hypo-allergenic, wheat gluten free dog foods for every stage of your dog's life.

There's delicious 'Chicken with Veg & Rice' and yummy 'Fish with Veg & Rice' for adult dogs, plus specially formulated puppy and senior versions of 'Chicken with Veg & Rice'.

The recipes comprise only chicken or fish combined with vegetables for dietary fibre and rice for energy. To this we've added fish oil for Omega 3 & 6, seaweed extract as a source of vitamins and minerals, chicory extract as a natural prebiotic to aid digestion and green tea extract which acts as an antioxidant to improve the body's natural defences. The senior variety also contains glucosamine and chondroitin to help with joint mobility.

What the recipes **don't** include are artificial additives, red meats, wheat gluten, cereal fillers, soya, dairy products, GM or other ingredients commonly associated with allergic reactions and food intolerances.

You might expect to pay a hefty price for all this natural goodness. But no – new HiLife Nature's Essentials is highly competitively priced too, at a recommended £4.89 for each pack of eight 150g pouches!
